

123CURBS

D-I-Y CURB ADDRESS KIT

HOW-IT-WORKS

The 123CURBS™ kit contains everything a homeowner needs to easily paint a curb address in eight easy steps. The kit provides enough number stencils to support up to three duplicate numbers per address and enough paint for up to three applications. The templates and stencils work on both flat and rounded curb surfaces.

For best results: • Use at room temperature (70°F) • Shake paint can for 2 minutes • Spray 10 - 12 inches from surface • Avoid side-to-side spray pattern when painting numbers to prevent overspray • Use when there is little or no wind

1. Clean curb surface to remove any loose debris.

2. Apply background template to curb surface.

3. Spray paint white background.

4. Remove background template and let dry.

5. Insert number stencils into number template.

6. Place number template against curb surface.

7. Spray paint black address numbers and let dry.

8. Remove number template and save for future use.
